Something New.

THE WORLD RENOWNED WILLOUGHBY'S GUM SPRING GRAIN DRILL.

MANUFACTURED BY CROMWELL & DAVISON, GREENCASTLE, FRANKLIN CO., PA.

This celebrated Drill is superior to any other machine of the kind yet introduced to the public. Among its advantages are these:—It distributes the grain with perfect regularity. It never chokes or breaks the grain. Rough ground, or fast or slow driving, will not vary the quantity sown to the acre. It can be regulated whilst in motion. The teeth or shovels are so constructed as not to break when coming in contact with roots and stones, but spring back to their proper places. It will sow every kind of grain with the same hopper. It also measures the quantity of grain to be sown to the acre, and is simple in its construction and easily managed.

THE GUANO ATTACHMENT.

This invention for sowing ALL KINDS of Guano and Compost makes the Drill perfect and complete. It sows the grain and manures the ground at the same time. This construction of the Attachment is very simple and is easily repaired. It will sow from one to twenty bushels to the acre, and the feed can be regulated whilst in motion, to suit poor or rich ground. These machines need only be seen to be admired. All who have tried them pronounce them the most complete arrangement for the purpose ever offered to the public. Hundreds of certificates can be produced from practical farmers in Franklin county and in Maryland to prove that the machine is no humbug, and has given entire satisfaction in every case where it has been tried.

MISCELLANY.

COL. W. W. H. DAVIS.

We gave a very brief sketch of the services of Col. Davis on Saturday. But as many readers may desire to have further particulars of the antecedents of the gallant soldier who heads the Democratic ticket, and to see THE NEXT AUDITOR GENERAL OF PENNSYLVANIA as he is, we amplify our sketch.

Col. Davis was born in Bucks county, in this State, and is the only son of General John Davis, who formerly represented that district in Congress. He was educated at the Military Academy at Norwich, Vermont. Immediately on graduating, he was appointed professor of mathematics and military instructor at the Military Academy at Portsmouth, Virginia. He remained there two years, when he returned home and studied law, and was admitted to the bar. Thence he entered the law school of Cambridge University. At this time the Hon. Caleb Cushing was raising his regiment to go to Mexico, with which country the United States was then at war. Mr. Davis shut up his law books and enlisted as a private in Captain Crowninshield's company. His knowledge of military affairs soon brought him into notice. He was commissioned a lieutenant, and then made adjutant of the regiment. When Colonel Cushing was promoted in the field, Lieutenant Davis was offered the majority of the regiment, but being tendered the position of aid-de-camp and acting assistant adjutant general on the staff of Gen. Cushing, he accepted the latter. He served on the upper line under General Taylor for some time, and then was transferred with his brigade to the lower line to reinforce General Scott. He discharged the duties of quartermaster for Patterson's division on the march from Vera Cruz to the city of Mexico. In the winter of 1848 he was promoted to a captaincy by an order of General Scott, and as such served to the end of the war.

On his return home in July, 1848, he opened an office in Doylestown, and commenced the practice of law. In September, 1853, President Pierce appointed him District Attorney of the United States for the Territory of New Mexico, and he crossed the great plains in November, of that year, and took up his residence in Santa Fe. The District Attorney was obliged to ride the circuit, a thousand miles in extent, twice a year, and cross the great desert, known as *El Jornado del Muerto*, the Journey of Death, where for a distance of ninety miles water is found in only one place, and that collected from rains. The country was infested by hostile Indians, and the travel was dangerous. Captain Davis made this trip in the spring of 1854 in company with four members of the bar and the Marshal. In the summer of that year he was appointed Secretary of the Territory, which position he held until November 1857, when he resigned and returned to Bucks county. Meanwhile he was acting Governor and Superintendant of Indian affairs for over a year. While he resided in Santa Fe he edited and published the Santa Fe *Gazette*, in English and Spanish, over two years. Colonel Davis then crossed the great plains that stretch from the Missouri river to the Rocky Mountains several times, and met with numerous adventures. On one occasion he was returning to the States in charge of a lady, her servant and child. When the little party he was travelling with was some four hundred miles out, and on the Cimmaron river, they were pounced upon by a war party of mounted Arrapahoe Indians and made prisoners. When the Indians were seen approaching, the females and child were covered up with blankets in one of the wagons, as their presence always increased the hostility of the savages. The teams were stopped and the men obliged to get out of the wagons. The Indians sat down on the ground in a circle and held a council of war to determine the fate of the prisoners. Finally the chief agreed to let them go on condition that they would divide their provisions, which being considered a cheap ransom, was accepted, and the party was released. At this time there was no friendly assistance nearer than three hundred miles.

In the spring of 1858 Mr. Davis purchased the Doylestown *Democrat*, one of the very largest county newspaper establishments in the country, and since then has been engaged in the profession of a public journalist. The rebellion of 1861 found him busily engaged on his paper. When the insurgents fired on Sumter he threw down the pen and took up the sword. He raised the first armed men in his county and Congressional district to sustain the government. He called a meeting in the Court House on his own responsibility, organized it, took the rostrum, and in a short speech called for volunteers. In two hours sixty had enrolled their names, and in two days one hundred and fifty had offered their services. He went to Harrisburg with his company, and was thence sent to York.—Here he was offered the lieutenant colonelcy of the 16th regiment, but would not leave his company, and was then transferred to the 25th Pennsylvania regiment, in which he served as captain through the three months' campaign, on the Upper Potomac, under Gen. Patterson. Capt. Davis was ordered to guard a six gun battery from York to Washington, and his company was the first body of troops which passed through Baltimore after the bloody riot of April 19th. His men were hooted at and stoned, and they sat on the trucks, with their rifles cocked, ready to resist attacks, but none were made.

Captain Davis was mustered out of service the last of July. In August he went to Washington and again tendered his services to the Secretary of War. He was immediately authorized to raise a regiment of infantry and a battery of artillery to serve for three years or the war. He fixed his camp at Doylestown, and in a month his regiment, the 104th P. V., was nearly full, composed of the very flower of the youth of Bucks and the neighboring counties. He turned the entire control and management of his newspaper over to Doctor John D. Mendenhall, a gentleman in whom he had confidence, and gave all his time and thoughts to his military duties. He did not resume the charge of his paper again until the 1st of January, 1865.

Colonel Davis marched to Washington the first of November; and many of our citizens remember the splendid appearance of his regiment as it marched through the city. In less than a week, he was placed in command of a brigade and ordered to organize and discipline it. Before he had been a month at Washington, he submitted to General McClellan, then Commander-in-Chief, a plan of barracks to winter his brigade in, which was approved, and he was ordered to build them. They were erected on Meridian Hill and the work was entirely done by his soldiers. For the last three years they have been known as "Carver General Hospital." Colonel Davis took his brigade to the Peninsula in March, 1862, and commanded it until the last of April, when he was relieved by General H. M. Naglee. He then returned to his regiment. His regiment participated in all the operations in the campaign on the Peninsula, and with the 52d Pennsylvania regiment led the celebrated *reconnoissance from the Chickahominy to within four miles of Richmond*. Colonel Davis, with his regiments, brought on the celebrated *action of Fair Oaks*, the first of the series of bloody encounters around the Confederate capital. Here he lost forty per cent. of his men, and received a painful wound, a rifle ball penetrating his left elbow, at the joints.—He was also struck by a spent musket-ball, in the left breast. He was laid up by his wound two months, and rejoined his regiment at Harrison's Landing seven days before his leave of absence expired, and when he could not mount his horse without assistance. When the Army of the Potomac returned to Washington his division (Peck's) was retained on the Peninsula, and Colonel Davis was placed in command of the important post at Gloucester Point, garrisoned by a small brigade. He put the extensive works there in complete repair. In December of that year he was transferred to North Carolina, when General Foster placed him in command of his old brigade again, which he retained, with an occasional change of regiment, until nearly the *end of his term of service*. His command was transferred to South Carolina, in January, 1863, with the army that was intended to attack Charleston. He commanded a brigade, or division, in the subsequent operations before that city. He was with General Terry in the action on James Island, July 16th; he was next placed in command of the important post of Folly Island; thence transferred to Morris Island, and assisted in the siege operations against Wagner and Sumter. His brigade was one of the two selected by General Terry to make the final assault on Fort Wagner, the 7th of September. From the 18th of January until the 25th of April, 1864, Colonel Davis was in command of the operations on Morris Island against Charleston, the only place in the department where active hostilities were constantly carried on. This was at a time when there were eleven general officers in the department. The fact that Colonel Davis was entrusted with the command of the post of honor, gives evidence of the great confidence his superior reposed in him. From Morris Island he was transferred to the command of the important District of Hilton Head, extending from Saint Helena sound to, and including, Fort Pulaski, at the mouth of Savannah river, a distance of sixty miles. When a combined attack was made on Charleston, in July, 1864, Colonel Davis commanded the first brigade of Hatch's division. He led the advance up Johns' Island to within sight of the city. On the morning of the 5th, while examining with a glass, a rebel battery that was playing upon his men, he was struck on the right hand by a shell, which carried away the fingers and tore the hand terribly. Of course he is made a cripple for life. After he had so far recovered from his wound as to be able to do light duty, he was made President of a general court martial, in Philadelphia, where he remained until he was mustered out of service, the first of October, 1864.

Colonel Davis was never promoted, the reason of which the War Department can give. He entered the service with more knowledge of, and experience in, military matters than ninety-nine out of every hundred officers in the volunteer army. He has in his possession the very highest testimonials from his superior officers, and was frequently recommended for promotion. He was honorably mentioned in orders for his conduct at Fair Oaks. After the fall of Wagner and Sumter, the Adjutant General of the army wrote to General Gillmore and requested him to report the names of the officers of his corps who deserved promotion. In the reply the name of Colonel Davis stands number two, but there it ended. The others, we believe, were all promoted. Four out of five of the regimental commanders in Colonel Davis' brigade, and of course his juniors, were made generals. We are speaking of facts in this connection, not finding fault. It may be entertaining at some time to ask the reason.

The War Department would not promote Colonel Davis. The Popular Department in Pennsylvania will probably correct executive errors so far as to elect him Auditor General.—*Age.*

A Radical Paper Bolting.—The Troy (Ohio) *Times*, a radical Republican paper in Miami county, is not satisfied with the action of the Republican State Convention in indorsing President Johnson. It says, after quoting the indorsement:

"This of course settles the matter here in Ohio until the next Convention meets. Those who believe in supporting the President in his wholesale pardoning of rebels and in refusing the ballot to colored soldiers, will of course support the candidates that stand on this platform. For our own part, we support no such principles nor the men who advocate.

What's the Right Name?—Some people speak of the internal revenue as the "internal revenue." But an exchange, in view of the probable duration of the term for which it will be imposed, suggests that "eternal revenue" would better express public opinion.

A NEW ABOLITION PROJECT.

General Cox, the Abolition candidate for Governor of Ohio, is afraid to avow himself favorable to negro suffrage and equality, but suggests another "plan," which, in his own words, is to "take contiguous territory in South Carolina, Georgia, Alabama and Florida, and there, under the sovereignty of the United States, and with all the facilities which the wealth and power of the Government can give, organize the Freedmen in a *dependency of the Union*, analagous to the Western Territories."

Now, what is this "plan?" Stripped of all verbosity, and rendered into plain Anglo Saxon, a cotemporary says it is simply this: After exempting the bonds issued by the Government, in the hands of Northern capitalists, from all taxation, even to pay the interest on the enormous sum of the nation's indebtedness, and casting the whole burthen upon the men and women of small means—the toilers and producers of the country—then with all the facilities which the power and wealth of the Governor can give, *provide a paradise for the negroes in the fairest portion of the continent, at the expense of the white race!*

This scheme of gigantic robbery—for it is nothing else—is to be accomplished, we suppose, by taxing the white inhabitants of the North to the extent necessary to secure the object of this Abolition leader.—He proposes to depopulate this vast territory of white people, drive them from the homes of their ancestors, and then to populate it with blacks, and thus establish a black "dependency," to be supported at the expense of the white tax-payers of the Union. Such is the "plan" of the candidate for Governor of the so-called *Union* party of Ohio? We shall await, with some anxiety, the result of the election in that State, to know whether such a villanous scheme will be endorsed by a majority of the voters.

If the negroes are to be colonized anywhere within the limits of the United States, we think New England the most fitting place, as it would not be necessary there to expatriate the white population. *Sambo* and *Jonathan* would affiliate in Massachusetts and the contiguous States without any trouble. We go in for making the experiment.

Gen. Barksdale's Field Glasses.—On Saturday afternoon Mr. Charles H. Graffen, of the Philadelphia newspaper fraternity, was presented with an elegant pair of field glasses, which were used by and formerly belonged to the Rebel Generel Barksdale, killed at Gettysburg. They came into the possession of one of our soldiers, who disposed of them to an officer who was conspicuous at that memorable engagement. Having determined to part with them, they were purchased by a few gentlemen, several of whom were ex-officers of the army, and on Saturday they were formally presented, as stated above. The glasses are so arranged that they can be used for theatrical purposes, and are said by judges to be amongst the most powerful in existence.—A silver shield ornaments them, bearing the name and date of the battle-field where they were captured, and the names of the following gentlemen:—Colonel A. H. Reynolds, Captain T. G. Funston, and C. A. Jones, late of the Sixty-eighth Pennsylvania Volunteers; Captain E. J. Hunken, William Meeser, John R. Downing and O. C. Brown, Esqrs., who presented them.

☞Æsop's Fables are of great antiquity, but—therein consists the test of true genius—they contain something applicable to every age of the world and condition of man. Here for instance, is a fable that seems to have been written expressly to meet the case of the present futile attempt to metamorphose the negro into a white man's equal. Our readers will all remember it:

Æsop says: "A certain man having bought a Blackamoor, was so simple as to think that the color of his skin was only dirt and filth, which he had contracted for want of due care under his former master. This fault he imagined might be easily removed. So he ordered the poor black to be put into a tub, and was at considerable charge in providing ashes, soap and scrubbing-brushes for the operation. To work they went, rubbing and scouring his skin all over, but to no manner of purpose, for which they had repeated their washings several times, and were grown quite weary, all they got by it was that the wretched Blackamoor caught cold and died."

☞"Indeed the record of Col. Campbell extends over fields where some of the hardest fought battles of the war took place."—*Harrisburg Telegraph, 18th.*

Will the *Hessian* be good enough to mention those "fields." We know that the 54th regiment, during the last year of its service, took part in several engagements with credit, but it strikes us the Colonel was not "in." Perhaps, however, we are mistaken. If we are, we would be pleased to have the *Hessian* set us right. One thing is certain, that while the regiment for nearly three years was scattered along the Baltimore and Ohio railroad, a distance of about sixty miles, often dangerously exposed, the "headquarters" invariably were somewhere else—not so dangerously exposed. Perhaps the *Hessian* means *elysian* fields, instead of battle fields.

Will the *Hessian* also please say whether the Colonel resigned when his regiment was ordered from the railroad to the front, and the Shenandoah became the grand theatre of war? We honor brave soldiers, but we first want to know if they are soldiers or shoulder strapped politicians. Give us the record.—*Patriot & Union.*

Kentucky Election.—The result of the election in Kentucky for members of Congress, is officially announced as follows:

1st District—L. S. Trimble, Democrat.
2d District—B. C. Ritter, Democrat.
3d District—Henry Grider, Democrat.
4th District—Aaron Harding, Democrat.
5th District—Lovell H. Rosseau, Administrationist.
6th District—Green Clay Smith, Administrationist.
7th District—George S. Shanklin, Democrat.
8th District—Wm. H. Randall, Administrationist.
9th District—Samuel McKee, Administrationist.
Total—5 Democrats and 4 Administrationists.

Favorable Criticism.—The London Times says Gen. of Sherman's speech at St. Louis, that he is as modest in his victories as he was bold and valiant in battle.

☞The London *Lancet* advocates the writing of physicians' prescriptions in plain English instead of abbreviated Latin.

THE HORRORS OF ST. DOMINGO.

The accounts from Georgia and other parts of the South render the following extract from Marshall's life of Washington particularly appropriate. We will add, that in this brief account of the horrors of St. Domingo, it might have been proper to say that those atrocities took place *after* the freedom of the blacks, and did not precede it. It was not the chained tiger struggling to break his chain, but it was the display of his ferocity after he was liberated by the French *Jacobin philanthropists*:

"Early and bitter fruits of that malignant philosophy which, disregarding the actual state of the world, and estimating at nothing the miseries of a vast portion of the human race, can coolly and deliberately pursue, through oceans of blood, abstract systems for the attainment of some fancied untried good, were gathered in the French West Indies. Instead of proceeding in the correction of any abuses which might exist by those slow and cautious steps which gradually introduce reform without ruin, which may prepare and fit society for that better state of things designed for it; and which, by not attempting impossibilities, may enlarge the circle of happiness, the revolutionists of France pursued the cruel and wicked project of spreading their doctrines of equality among persons, and between distinctions and prejudices which exist, to be subdued only by the grave.—The rage excited by the pursuit of this visionary and baneful theory, after many threatening symptoms, burst forth on the 23d of August, 1791, with a fury alike destructive and general. In one night, a preconcerted insurrection of the blacks took place in the colony of St. Domingo, and the white inhabitants of the country while sleeping in their beds, were involved in one indiscriminate slaughter, from which neither age nor sex could afford an exception. Only a few females, reserved for a fate more cruel than death were spared; and not many were fortunate enough to escape into the fortified cities."—*Marshall's Life of Washington*, vol. ii.

The madness of the French Revolution in its worst periods never exceeded the blind and infatuated Jacobinism prevailing among the abolitionists of the present day. We fear that nothing but some great catastrophe will awaken them to common sense and real humanity. The progress of fanaticism is amazing. We meet every day with men who hold the wildest doctrines, which, if imparted to them six months ago they would have rejected with indignation. Where is this to end? It is as certain as the fixed decrees of the Almighty that the white man must be the ruler in this republic; and in case of a bloody conflict, the inferior race must perish. Woe to those infatuated men who provoke the conflict!—*Carlisle Volunteer.*

EXPENSES AT THE WHITE HOUSE.

The Rochester *Democrat*, (Rep.) explains how the late President Lincoln was able to save $60,000 from his salary. It says:

"That the trouble with a new President of reasonably frugal habits is not how to save his salary, but how to spend it. In the first place he has no rent to pay. Congress furnishes the White House from garret to cellar, and provides all that is needed in kitchen and pantry, as well as in parlor. He has no wages to pay. Congress pays his servants from private Secretary to boot black and scullion.

"It also provides him with fuel and lights and pays the expenses of his stables. It provides him with a garden and a corps of gardeners, who ought to see that he pays nothing for vegetables, or fruits, or flowers. In short, of the ordinary expenses of housekeeping, the only bills the President is called upon to pay are the butcher's and the wine merchant's. Even the latter has not fallen upon the recent occupants of the White House, whose cellars have been kept well stocked with presents of wines and liquors.

"When these items are deducted, and when it is considered that it is no etiquette in Washington to call upon the President for contributions to ordinary charities, it can be easily understood how Mr. Lincoln could lay up one half or more of his salary. And this economy will be more comprehensible if the fact be universally asserted and credited in Washington, that the expenses of the parties and State dinners occasionally given by the President were, *at Mrs. Lincoln's request, paid for out of Government funds.* All this was different under former administrations."

As the *Democrat* is sound in its Republicanism and supported Mr. Lincoln and moreover is owned by the ex Postmaster of the last Congress but one, a strong Republican House too, we shall believe the facts as they are stated.

An Indefinite Term.—Many of the troops in the department of Virginia demur to being longer detained in the service, having, as they allege, enlisted for the war. General Terry has issued an order defining "during the war" to mean as long as a military necessity in any of the late insurrectionary States exists. That necessity, if the radical policy be pursued, will exist until the end of time.

Suspension of Pardons.—The President has requested the Attorney General to suspend the issue of warrants for pardon until further orders. This action has been taken in order to facilitate a general clearing up of the numerous and complicated petitions now before the President, to give him the opportunity to adopt some plan which will prevent unnecessary and shameful intervention by the pardon brokers.

"Miscegenation."—A singular case of miscegenation came before the police court in New York on Monday, when it was discovered that Charles Henry Hause, a colored waiter, had not only married a white woman, but had deserted her and afterwards taken to himself another. By both of them he had children. The women were sent to Blackwell's Island for six months.

☞The Lynchburg and Petersburg papers state that in some parts of Virginia the freed negroes have declared that they will not assist in putting in a crop of wheat for the next year. The reason assigned for this is that they have imbibed the notion that on the 1st of January next the United States authorities are going to parcel out among them the lands belonging to their late masters.

☞The wife of Lewis Washington, of Bellair, Va., is now in this city, importuning for the restoration of their farm which was confiscated in consequence of the rebellion of her husband. Lewis Washington is a relative of the "Father of his Country," and was, it will be recollected, taken prisoner near Harper's Ferry by Old John Brown.

☞The Chicago *Tribune* recently said about the negroes: "They have taken our time, our first born, and our money freely." Thereupon the Louisville *Journal* remarks "Maybe they had some claim to your first born! What color was it?"

Can't Imitate Them.—The only part of a white lady's head gear that the colored sisters cannot imitate is the "waterfall," and on that account it is the subject of all the ridicule they can command.

☞"Macky," the Lexington correspondent of the Cincinnati *Commercial*, says the word "loyal" has been so far abused that it "has become a stench in the nostrils of the people."

☞A private soldier of the Fifth Pennsylvania regiment, after being discharged, cowhided the captain of his company for alleged brutal treatment while in service.

☞There are 10,741 negroes of all ages in the city of Nashville. In 1860 there were only 4,6[illegible]

BRANDRETH'S PILLS,

WHOSE TIMELY USE, UNDER PROVIDENCE, HAS OFTEN SAVED LIFE.—These celebrated Vegetable Pills are no new, untried remedy; they have been used and tested in the United States for thirty years, and are relied upon by hundreds of thousands of families as almost their sole medicine when sick. No care or expense is spared in their preparation, and it is certainly true when I assert that no King can have a medicine safer or surer than Brandreth's Pills.

They produce a good effect upon disease almost immediately they are taken. By some wonderful power, perhaps electric or nervous influence, the progress of diseased action is arrested; where watchfulness and pain have been present, the system becomes quieter, and the patient soon obtains refreshing sleep.

The genuine BRANDRETH PILL BOX has upon it a UNITED STATES GOVERNMENT STAMP with B. BRANDRETH in White Letters on the same. [Aug. 21, 1865. 1m

A FEW REASONS WHY THE

AMERICAN WATCH

IS THE BEST.

It is made on the best principle, while the foreign watch is generally made on no principle at all. The foreign watch is mostly made by women and boys, BY HAND. While their labor is cheap, their work is dear at any price. Such watches are made without plan, and sold without guarantee. They are irregular in construction, and quite as irregular in movement. They are designed only to sell, and the buyer is the party most thoroughly sold. Those who have kept "Lever," "Lepines" and "Swiss levers" in protected repair for a few years will appreciate the truth of our statement.

THE PLAN OF THE AMERICAN WATCH.

Instead of being made of several hundred little pieces screwed together, the body of the American Watch is formed of SOLID PLATES. No jar interferes with the harmony of its working, and no sudden shock can throw its machinery out of gear. In riding or any business pursuit, it will hold together firmly as a single piece of metal. It is just what all machinery should be—

1st ACCURATE. 2d. SIMPLE. 3d. STRONG. 4th ECONOMICAL.

We not only secure CHEAPNESS by our system but QUALITY. We do not pretend that our Watch can be bought for less money than the foreign *mole-de-Lever*, but that for its real value is sold for one-half the price.

OUR SOLDIER'S WATCH (named Wm. Ellery) is what its name indicates—Solid, Substantial, and always Reliable—warranted to stand any amount of Marching, Riding or Fighting.

OUR NEXT HIGHER QUALITY OF WATCH (named P. S. Bartlett) is similar in size and general appearance, but has more Jewels, and a more elaborate finish.

OUR LADIES' WATCH, recently brought out, is put up in a great variety of patterns, many of them of rare beauty and workmanship, is quite small, but warranted to *keep time*.

THE PROOF of the merits of our Watch may be found in the fact that we now employ over seven hundred workmen in our factories, and that we are still unable to supply the constantly increasing demand.

OUR THREE-QUARTER PLATE WATCH is thinner and lighter than the others we have described. Its fine chronometer balance is delicately adjusted to correct the variation caused by changes of temperature. These watches are made by our best workmen, in a separate department of our factory. For the finest time-keeping qualities they challenge comparison with the best works of the most famous English and Swiss makers.

RADWAY'S READY RELIEF.

Health is a serious thing. So, is sickness. The moment you are ill you desire to get well again at once. But what to take, is the question? It will not do to swallow that which, instead of curing you, may render you an invalid for life. Even a common cough or cold may, if treated improperly, be converted into a consumption of the lungs or some other fatal disorder, whereas, if treated promptly and properly it can be made to disappear in a few hours. Two teaspoonfulls of Radway's Ready Relief, for instance, if mixed in half a tumbler of hot water, previously sweetened to render it palatable, is all the medicine you want.—Take it at night when you go to bed, and you will wonder in the morning what has become of the sore throat, the provoking cough, the hoarseness, the headache, the pain in the back or shoulders which affected you the day before. The most violent cold, attended though it may be with alarming symptoms, is successfully mastered by one, or at the most, by a couple of doses of Radway's Ready Relief, administered in this simple manner. We say this confidently, because we know it from constant experience. To call in a doctor would cost you five dollars, at any rate, in addition to the expense of his prescriptions, which would probably be over a dollar more; but Radway's Ready Relief, despite the high premium on gold, is only fifty cents a bottle. That small sum will not only perfect your cure, therefore, but leave you Relief enough to use for months to drive away other disorders.

Radway's Ready Relief should be applied to the part or parts where pain is felt. No matter what the cause may be, it will afford immediate ease.

DR. MARSHALL'S CATARRH SNUFF.

This Snuff has thoroughly proved itself to be the best article known for curing the Catarrh, Cold in the Head and Headache. It has been found an excellent remedy in many cases of Sore Eyes. Deafness has been removed by it, and Hearing has often been greatly improved by its use.

It is fragrant and agreeable, and GIVES IMMEDIATE RELIEF to the dull heavy pains caused by diseases of the head. The sensations after using it are delightful and invigorating. It opens and purges out all obstructions, strengthens the glands, and gives a healthy action to the parts affected.

More than Thirty Years' of sale and use of "Dr. Marshall's Catarrh and Headache Snuff," has proved its great value for all the common diseases of the head, and at this moment stands higher than ever before.

It is recommended by many of the best physicians, and is used with great success and satisfaction everywhere.

Read the Certificates of Wholesale Druggists in 1854: The undersigned, having for many years been acquainted with "Dr. Marshall's Catarrh and Headache Snuff," and sold it in our wholesale trade, cheerfully state, that we believe it to be equal, in every respect, to the recommendations given of it for the cure of Catarrhal Affections, and that it is decidedly the best article we have ever known for all common diseases of the Head.

New Skirt for 1865-6.

THE GREAT INVENTION OF THE AGE IN HOOP SKIRTS.—J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.—This invention consists of Duplex (or two) Elliptic Pure Refined Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable Spring ever used. They seldom bend or break, like the Single Springs, and consequently preserve their perfect and beautiful Shape more than twice as long as any Single Spring Skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies, they are superior to all others.

The Hoops are covered with 2-ply double twisted thread and will wear twice as long as the single yarn covering which is used on all Single Steel Hoop Skirts. The three bottom rods on every Skirt are also Double Steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., &c., which they are constantly subject to when in use.

All are made of the new and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect Shape possible, and are unquestionably the lightest, most desirable, comfortable and economical Skirt ever made.

The Adams County

AGRICULTURAL FAIR.
THE GROUNDS.

The Managers of the Adams County AGRICULTURAL SOCIETY have the pleasure of announcing to the public that the FAIR will be held at the BENDERSVILLE GROUNDS, on TUESDAY, WEDNESDAY and THURSDAY, the 19th, 20th, and 21st days of September next. Until that time the Grounds will be open to all, (subject to the regulations of the Managers) on the FIRST and THIRD SATURDAYS of each month, for exercising and training horses, and for pleasure driving. The public are invited to bring along their fast horses and fancy horses to develop their muscle and exhibit their activity and metal on the turf. Gentlemen, bring with you your wives, your daughters and acquaintances. Upon the Ladies, to a great degree, depends our success. If they will participate and assist, we feel certain that the Fair will excel any one previously held, and be an occasion of which the people of Adams County may be proud. These occasions will divert the mind from the regular routine of every day life and be conducive to health and strength.

—ALSO—

AT 2 O'CLOCK, P. M., OF EACH OF THE ABOVE DAYS, the Board will meet at their office on the Fair Grounds, for the transaction of business appertaining to the Fair. And at 6 o'clock, P. M., on each of the said days, discussions will be opened on Agricultural subjects, which will also be held on the Fair Grounds. The public generally, and especially the ladies, are invited to be present and participate in these discussions, which are intended for the diffusion of knowledge on the subjects of Farming, Gardening, Fruit Growing, &c.

TOWN AND COUNTRY PROPERTIES
FOR SALE.

We have now for sale very desirable Farms, located in the counties of Augusta, Rockingham, Shenandoah, Page, Pendleton and Hardy.

The Farms contain from 40 to 500 Acres, and we are privileged to sub-divide large tracts of land if desired by the purchaser.

Many of the Farms are within an easy drive of the county town in which they are located, thereby securing an early market.

The improvements are generally good, and on the farms are springs and running streams of water, as well as plenty of the very best timber.

It is sufficient recommendation for these lands to say that they lie in the very heart of the Shenandoah Valley, which has a world-wide reputation for fertility of soil and beauty of scenery.

Soluble Pacific Guano.

JOHN S. REESE & CO.,
WHOLESALE AND RETAIL AGENTS FOR
THE PACIFIC GUANO COMPANY,
71 South Street, Baltimore.

The *Soluble Pacific Guano* resembles *Peruvian Guano* in appearance, odor, and composition. The value of all Guanos and Super Phosphates of Lime, of whatever name, depends, as is well known, upon the per cent. of *Ammonia, Soluble Phosphate* and *Bone Phosphate of Lime* they contain. This Guano differs from Peruvian only in the fact that it contains less *Ammonia*, but this difference in Ammonia is more than made up by the fact that it contains almost *double* as much Soluble and Bone Phosphate of Lime. This difference makes it a *durable fertilizer*, with all the activity of Peruvian Guano. Although the price of this Guano is only one-half the price of Peruvian, and is not higher than the Super Phosphates of Lime, yet it contains, as is proven by analysis and inspection, vastly more of *ammonia, soluble,* and *Bone Phosphate*, than is found in the best of them. Hence its economy and intrinsic value must render it an object of great interest to farmers generally.

We wish farmers to take especial notice, that the conditions upon which we have the agency of this Guano are that every cargo is regularly inspected and analyzed by Dr. Liebig, whose authority in such matters is paramount.

This arrangement affords us and consumers a protection not had in the purchase of fertilizers generally. It must also be noticed that the phosphates of this Guano, are not mineral, but earthy Phosphates, which is greatly to its advantage.

The following is a summary of analysis of last Cargo:

Moisture,	10 per cent	
Organic Comb'tible Matter,	39.71	" "
Earthy Matter,	50.28	" "
Yielding Ammonia,	3.40 per cent	
Soluble Phosphate of Lime,	17 07	" "
Bone Phosphate of Lime,	24.22	" "

Bone Flour,

UNADULTERATED,
MANUFACTURED BY THE
BOSTON MILLING AND MANUFACTURING
COMPANY.

The value of unburnt, unadulterated Bone, is well known. When reduced to the condition of Flour, it is as active as if dissolved with acid, and is far better, because it retains all its Phosphates. Its superiority over the common Bone Dust is two-fold or more. It is a consummation sought for in vain for the last half century, and is destined to give new value to Bone as a fertilizer, and work a revolution in its use. The BONE FLOUR is made only by the above Company, and is branded with their trade mark, which is the guarantee of its genuineness.

REMOVAL.
ECKENRODE IN THE DIAMOND!

GEORGE F. ECKENRODE, FASHIONABLE TAILOR, informs his friends and the public generally, that he has REMOVED his Tailoring Establishment to the second floor of Sampson's building, (over Brinkerhoff's Clothing Store,) northeast corner of the Public Square, entrance on York street, where he is prepared to do all work in his line in the best manner, and to the satisfaction of customers. He employs none but first class hands, and receiving

THE FASHIONS REGULARLY,

he can warrant fashionable fits and neat and substantial sewing. He asks a share of the public's patronage, promising to spare no effort to deserve it. His charges will always be found as moderate as the times will allow.

FOUTZ'S
CELEBRATED
Horse and Cattle Powders.

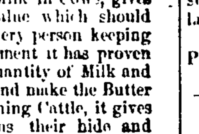
These Powders will strengthen the Stomach and Intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all Diseases incident to the Horse, such as Glanders, Yellow Water, Distemper, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c. In poor, low-spirited animals, it has the most beneficial effect.

The use of them improves the wind, strengthens the Appetite, and gives to the Horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

FOR MILCH COWS.

The property this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

HOGS.



In all Diseases of the Swine, such as Coughs, Ulcers in the Lungs, Liver, &c. By putting from half a paper to a paper of these Powders in a barrel of Swill, the above Diseases can be cured or entirely prevented. By using these Powders the Hog Cholera can be prevented.

Price 25 cts. per Paper, or 5 Papers for $1.

Globe Inn,

YORK ST., NEAR THE DIAMOND,

GETTYSBURG, PA.—The undersigned would most respectfully inform his numerous friends and the public generally, that he has purchased that long established and well known Hotel, the "Globe Inn," in York street, Gettysburg, and will spare no effort to conduct it in a manner that will not detract from its former high reputation. His table will have the best the market can afford—his chambers are spacious and comfortable—and he has laid in for his bar a full stock of wines and liquors. There is large stabling attached to the Hotel, which will be attended by attentive hostlers. It will be his constant endeavor to render the fullest satisfaction to his guests, making his house as near a home to them as possible. He asks a share of the public's patronage, determined as he is to deserve a large part of it. Remember, the "Globe Inn" is in York street, but near the Diamond, or Public Square. SAMUEL WOLF.
